Da Vinci PRO-6 Manual CD/DVD Printer

Manual CD/DVD Printer

The **Da Vinci PRO-6** is a 6 disc CD/DVD printer, combining fast 5 colour "PHOTO" printing with an enhanced 2880 dpi resolution. The printer is capable of producing CDs with much finer detail and less graininess than other printers, resulting in outstanding print quality. The Da Vinci PRO-6 prints directly onto the surface of: CDs, DVDs, CD Business Cards, Mini Discs and A3 paper.

The printer's rear fed laminated alloy 6 disc CD caddy, which is separate from the paper tray, ensures perfect print positioning of up to 6 discs and accurate carriage through the printer. The 6 disc caddy is a great time saving device as 6 discs can be printed unattended in a single session. An optional 10 positional tray for CD business cards is also available, as is an optional 8 positional tray for 80mm Mini Discs.

The Da Vinci PRO-6 is both MAC and PC compatible and can also be connected via a USB port. Other benefits of the printer include no banding or streaking on print and a separate black ink cartridge for true black ink quality.

The Da Vinci PRO-6 also comes with the excellent easy to use graphics software COPYTRAX DISCUS and is ideal for those wanting to produce professional quality CDs at a very affordable price.

Da Vinci PRO-6

Manual Colour CD/DVD Printer
