Easy to Operate  
Software from Prassi

Suitable for Office and  
Production  
Environments

Easy to Operate

32x Speed Writers

## Reflector & ReflectorPRO Optical Disc Duplicators

Producing your own CD-Rs and DVD-Rs has never been faster and easier than with the Reflector and now the new ReflectorPRO Optical Duplicators. The Reflectors single drive will duplicate 50 CD-Rs per job while the ReflectorPRO's dual drives will duplicate 100 CD-Rs per job.

With speeds of up to 32X, the fastest currently available, the Reflector and ReflectorPRO are the perfect solutions for professional, in-house production of CD-Rs and DVD-Rs. They are the new price/performance leaders in optical disc duplication.

*Reflector Optical Disc Duplicator and Printer    ReflectorPRO Optical Disc Duplicator and Printer*

Both the Reflector and ReflectorPRO's advanced robotics and software work automatically, so no operator intervention is required after a job is started. Depending upon your needs, you can also print directly onto the surface of your discs with either the Imager IV or ImagerPRO inkjet or Imager Thermal disc printers.

### Easy to Operate: Proven Reliability

An efficient and user-friendly design streamlines all operations. The uncomplicated control panel has just three buttons. Since most duplication jobs are unattended, reliability has carefully been designed into Reflector and ReflectorPRO. The "pick and place" mechanism greatly improves upon the reliability of other designs, assuring you non stop, high volume production. In addition, both models have a high impact plastic front and all metal case. Their rugged construction and styling makes them equally at home in office or production environments.

### Two Printing Options

Reflector comes ready for the integration of a Verity Systems CD printer. You can print text, graphics, logos and even full colour photos directly onto the top surface of discs.

Both inkjet and thermal printers are available, so you can choose which one works best for you. Select the Imager IV CD colour printer for 1200 x 1200 dpi resolution or the ImagerPRO for 2400 dpi, full colour printing. Or choose the Imager Thermal CD Printer for durable, scratch and smudge resistant, completely waterproof printing onto standard discs.

### Specifications

#### REFLECTOR

<b>Configurations:</b>	<b>CD-R System:</b> One 32X CD-R recorder, <b>DVD-R System:</b> One DVD-R recorder
<b>Optional Printers:</b>	Imager Thermal CD Printer Imager IV Inkjet CD Colour Printer ImagerPRO Inkjet Colour Printer
<b>Minimum System Requirements:</b>	Pentium® II/III (or equivalent) at 450 MHz or higher, 64 MB RAM, available PCI slot, FireWire host adapter, one free serial port, one free parallel printer port.
<b>Disc Capacity:</b>	50 disc input, 50 disc output
<b>Recordable Formats:</b>	<b>CD:</b> CD-R, CD-RW, CD-Audio (CD-DA), Video-CD, MP3 to CD-Audio, most other industry standard formats <b>DVD:</b> DVD-R, DVD-RW; other formats to be added as they become standardised by the industry.
<b>Operating Systems:</b>	Windows 95/98 2nd Ed/ME/2000/NT/XP
<b>Interface:</b>	
Robotic Control:	Serial port
Printing:	Parallel port
Image Data:	IEEE 1394 (FireWire)
<b>Power Requirements:</b>	100-240 VAC, 50/60Hz, 60 watts
<b>Net Weight:</b>	12.5lbs (5.67kg)
<b>Dimensions:</b>	Length 16.625" (422mm) Width 10.125" (257mm) Height 10" (254mm)
<b>Certifications:</b>	Emissions: FCC Class B, CE Safety: TUV-GS, cTUVus, CE
