**Print Onto Virtually Any CD-R & DVD-R**

**Prints Are Highly Scratch and Smudge Resistant**

**Indelible Process Requires No Drying Time**

**Professional Results**

**Economical Production Costs**

**Full Custom Design Capabilities**

*Rimage Thermal CD Printer*

The Rimage thermal CD printer offers an impressive range of features to anyone who duplicates CD-R's or other 120mm optical media such as CD-RW, DVD-R and DVD-RAM. The printer is capable of on-demand printing at fast print speeds, and its rugged durability allows 24-hour, 7 day use.

You can print high durable text and colourful graphics onto a wide variety of standard lacquer-surface media types, eliminating the need for special printable surface discs.

You can print one colour or full colours using virtually any combination of text, graphics, logo, photo's or other artwork.

#### **Print Resolution & Speed**

The Rimage thermal printer can print CDs at up to 300 x 600 dpi. and has a printing speed of around 50 seconds per disc (depending on image resolution and printer mode).

#### **Durability of Images**

As thermal inks are used in the print process the drying time required for some other printing methods is eliminated. Cost per copy is also very affordable when compared to other printing methods. The low cost thermal ribbon can produce 500 colour images or using a single colour ribbon 1500 mono images can be produced.
